

[illegible]

COMMITTEE NOTE

The form is amended to implement an amendment to Rule 1007 by deleting the instruction that parties to these contracts and leases will not receive notice of the bankruptcy case unless they are listed on one of the schedules of liabilities. Even though a contract or lease may be an asset of the debtor or the debtor may be current on any lease or contract payment obligations, other parties to these transactions may have an interest in the bankruptcy case and should receive notice.
